## BRIGHT'S DISEASE FATAL.

To Wayne N. Stevens, Who Passed Away at Battle Creek, Mich., Thursday Night.

Thursday night about 12 o'clock death claimed Wayne N. Stevens, age 55, one of the best known farmers of Ohio county, when he succumbed to Bright's disease at a sanatorium in Battle Creek, Mich., where he had gone about three weeks before in an effort to get relief from the malady which was sapping his life away.

Mr. Stevens had been a sufferer from the ailment which ultimately caused his death, for quite a while, but he had been confined to his bed only a short time.

He was a member of Hartford Lodge No. 675, F. & A. M., and also a Knight Templar and a Shriner.

Besides his wife, who before her marriage was a Miss Renfrow, he is survived by his mother, Mrs. Creasy Stevens, and one brother, Lon Stevens.

The funeral, which occurred at the Stevens home, a few miles north of town, and the burial at Alexander school house, was attended by one of the largest crowds ever brought together on a similar occasion in Ohio county. Fully five hundred people were present to pay the last tribute of respect and honor to this well-known and well-beloved Ohio county citizen.

The funeral at the home was conducted by Rev. A. D. Litchfield, pastor of the Hartford Methodist church, after which the remains were taken in charge by the Hartford Lodge of Masons, assisted by Masons from various lodges over the county, and laid to rest with Masonic honors by the side of loved ones in Alexander cemetery.

## WILLIAM S. MOORE IS MADE ENSIGN IN NAVY.

William S. Moore, son of Mr. and Mrs. E. P. Moore, of this city, who had been in the Merchant Marine volunteer service since last summer, and who recently entered the navy, has been promoted to the rank of Ensign. The Courier-Journal Sunday contained an excellent likeness of young Moore and the following notice relative to his promotion: "The rank of Ensign in the United States navy has just been conferred upon William S. Moore, of Hartford, Ky., who since his graduation last June from the State University at Lexington, has been engaged in the merchant marine volunteer service. In this service he has had license as second engineer, but two weeks ago decided to forsake the merchant marine for the navy.

"The fact that he was so early commissioned is due to his under-education of engineering, as he gained electrical engineering at Kentucky State University before graduating. Moore made two trips to Europe while in the merchant marine service. He is but 22 years old. He is a son of Mr. and Mrs. E. P. Moore, of Hartford, Ky., while an uncle, John T. Moore, is cashier of the Louisville branch of the Eighth District Federal Reserve Bank."

## SHOOTING AT PLEASANT RIDGE.

Quite a serious shooting occurred at Pleasant ridge Friday evening when Earnest Mayfield shot and wounded Dennis Hoagland. Both resided in that neighborhood. The ball penetrated Hoagland's right side and it is feared caused internal injury. His recovery is uncertain. The cause of the trouble between the two men is not known, but it is said both were intoxicated.

## MINISTER TO DEN. MARK RESIGNS.

Washington.—Maurice Francis Egan, United States minister to Denmark and author of note, has resigned owing to ill health.

## WILSON URGES LOUISIANA TO ADOPT SUFFRAGE.

Washington.—Adoption of woman suffrage in Louisiana was urged by President Wilson in a telegram sent to the Louisiana state legislature.

## IGLEHEARTS TO HOLD RE-UNION.

Mr. E. M. Igleheart has returned to Ohio County after an absence of forty-seven years in Missouri and Montana and is visiting his brothers in the Kronos and Centertown neighborhoods. Mr. Igleheart is the youngest of four brothers, all of whom reside in Ohio County except himself. He is 70 years of age, while one of his brothers W. B. aged 88 is the oldest, J. C. 78 and L. J. 85, respectively, making a combined total of 316 years of the four.

The Iglehearts will hold a reunion at "Uncle" Lige Brown's, near Walton Creek church, on what is known as the old Jacob H. Igleheart place, Sunday, June 16th, at which these brothers and many others will be present.

These aged gentlemen are very interesting in conversation and when they grow reminiscent, they relate many incidents that throw light on the early days in the County's history. L. J. ran one of the three first flour mills ever built in the county. It was operated by horse-power and when the old Hartford flouring mill burned down, he kept Hartford supplied for some time by carrying flour from his mill on horse back.

E. M. left the county many years ago and went first to Missouri where he remained some time, later moving to Montana where he engaged in business until recently. On the day after he arrived at Kronos the brothers ate dinner at the home of J. C. this being the first time they had all been together since E. M. left forty-seven years ago. L. J. lives near Centertown, W. B. near Matanzas, while J. C. resides at Kronos.

## AMERICAN MARINES ADVANCE 600-YARD FRONT.

With the American Army in France, June 10.—The United States Marines attacked the Germans after daybreak this morning and penetrated their lines about two-thirds of a mile on a 600-yard front in the Belleau wood, northwest of Chateau Thierry. The Germans now hold only the northern wing of the wood. The Americans took two minenwerfer, which are the largest pieces they have yet taken. Every foot the enemy advances brings him further into territory, every foot of which the allies have prepared for defense. Therefore his task becomes momentarily more difficult.

The allied staffs are prepared to meet every eventuality and display the most perfect confidence in the outcome.

## UNITED STATES NEEDS GRADUATE NURSES.

The Government has recently issued a call for several thousand nurses to volunteer for services in France and in the cantonments in America. This call will be answered to the limit because the American women are never failing in patriotism. But this call is only for graduate nurses, those well up in the profession. When they depart their places will have to be filled, and who will fill them? Younger and less experienced women must come forward to train for the vacant places. And it behooves us to be as sparing with the services of nurses as possible so one nurse can serve several families. Thus we will release some one to go to the aid of our boys in France.

## NEIGHBORHOOD NEWS

All About You and Your Neighbors

### (Held Over Communications.)

Owing to a large amount of extra work last week, setting and arranging a list of delinquent tax payers, and being rushed for time, we were forced to omit several very interesting news-letters from the county. It was not from any desire on our part to neglect or purposely set aside these news-letters, but simply a case of lack of time. The Herald congratulates itself upon having such a splendid corps of correspondents and we believe that few papers are better supplied with wide-awake and alert news writers. We trust our correspondents will accept this apology for the omission of last week's letters.

#### BEECH VALLEY.

There was born to them five children, three boys and two girls all living except one daughter who passed to her reward nearly two years ago.

#### SULPHUR SPRINGS.

Quite a number of the boys from this section were called to Camp Taylor last week to be trained in the arts of war, so that our great army will be able to rid the world of Kaiserism and make the greatest history that was ever written by mortal man. Remember that we old codgers who are too old to fight, are behind you with foodstuffs, and money to the last cent. And we are expecting you to bring with you from France the greatest honor a nation ever achieved. Any man or woman who are not proud of you are Pro-German and should be stood against a brick wall and shot at sunrise.

Farmers are very busy with their corn planting. On account of so much rain many are planting their crops over. Not much tobacco is set but the ground is ready, and as we have had a fine rain the land is in fine shape. Crops are doing fine and we expect to feed our boys and have a few biscuits for ourselves on Sunday mornings.

Mrs. George W. Cox, and children, are visiting relatives in this section. Mr. Cox is a son of Albert Cox, and has been drilling oil wells near Seio, Ohio, for several years, but has recently moved to Somerset. Mr. Cox worked this way from roust about to head driller and his services are in great demand at good wages. He is another Ohio County boy making good.

Earl Cox bought a new buggy last week and will say this: Should he catch the eye of a grass widow who is pining for a second hitch up, dry your eyes and powder your nose and make application while going is good for you are his specialty.

Drilling has begun on the farm of Wallon Bros. near here. The progress of the work will be watched with interest by many.

Mr. George Shultz, and son, Joe, motored to Hartford Tuesday.

#### BEAVER DAM.

Beaver Dam was visited by another fire last Thursday night. Mr. Will Cooper and wife, who were occupying the confectionary of Mann Tilford, were awakened at one o'clock by the noise of fire. He discovered the coal house on fire. By the time the alarm was given, the fire was making headway in the store. The bucket brigade was organized and the flames were extinguished. The origin of the fire remains a mystery. Mr. Tilford carried some insurance but not sufficient to cover the loss.

The farmers of this vicinity are through planting corn and are ready to care for the "Golden Maiden," of which a bountiful crop is expected.

Mrs. Doe Hoeker, living a mile from town, sold 100 Plymouth Rock hens for \$115.00. Can any of the matrons of the county beat that?

Born to the wife of Mr. Mann Tilford, a girl, last week. Mr. Tilford is all smiles.

Born to the wife of Geo. Newton, a boy, mother and child doing well.

Mrs. S. D. Taylor and Mrs. Charles Taylor left Saturday to visit Mrs. Taylor's daughter, Mrs. Edgar Vaughn, of West Frankfort, Ill. She will also visit her son, Mr. Orvil Taylor, of Chicago.

Mrs. Dr. Oscar Flener, of Hopkinsville, was in town last week visiting old friends. She was on her way to Morgantown to visit her father and mother, Rev. and Mrs. A. B. Gardner.

Mr. Burgess Austin was operated last week for gall stones, by Dr. Wilmoth, of Louisville. The operation was a success and he is now on the road to recovery.

pigeon flying from the ocean alighted on the board walk at Coney Island today. Around the right leg of the bird was a tin carrier, on the inside of which were the figures "11."

A peculiar thing about the bird was that when a person in civilian clothes came near, it would try to attack him. When a patrolman arrived, however, to take the pigeon to the station house the bird became very docile, seemingly recognizing a uniform.

The Navy Intelligence Bureau was notified.

#### LETTER FROM ENGLAND.

April 28th, 1918.

Mr. Luther Johnson.

My Dear Father: I thought that I would try and write you a letter, to let you all know that I am well and having a good time, and hope you are the same. I hope to see you all again some day. I guess that you and Willie are farming now. The people don't do much farming in this country. Tell all of the boys that I am alright and if you know Horace's address, let me know in your next letter, for I want to write to him. This is a good place and I like it fine, for the time I have been here. But I don't know how long I will be here. I like the English Tommie's fine. Well I will close for this time. My address is

#### SIX KENTUCKIANS PASS NAVAL ACADEMY EXAMS.

Washington.—Six of the Kentucky lads nominated by Senator Beckham for principals and alternates at the Annapolis Naval Academy have passed the mental examination with flying colors and the following will be admitted to the academy as principals: Kirtley Gregg, Paris; William Pemberton, Lebanon; Leonard Sower, Frankfort, and Francis Beattie, Louisville.

#### ADRIET 19 HOURS.

An Atlanta Port.—The crew of the Boston schooner Jacob M. Haskell, which was sunk by a German submarine 40 miles east of Barnegat, N. J., Sunday, was landed at an Atlantic port by the steamer Grecian of the Merchants & Miners Line today. The 11 men had been in their small boats for 19 hours.

An officer of the Haskell said that the Grecian, after leaving Philadelphia Saturday night, heard firing and put back inside Cape May. Later she sailed, but saw no U-boats. The experiences of the Haskell's crew were related by Mate Geo. H. Gillatt, who said:

"The first we knew of the presence of the Germans was at noon Sunday, when a shot was fired across our bow by the submarine. At first we could see nothing, but a few minutes later Capt. Davis sighted the undersea boat. An officer and several men came aboard of us; we were told to leave the schooner at once. While we were putting a few cans of water and some tins of biscuits in our power boat the Germans placed bombs on our vessel.

"Following the orders of the submarine officer, we went alongside the U-boat, where we remained until our ship was sent to the bottom. The submarine shelled her in addition to exploding the bombs and she sank in five minutes.

"The last we saw of the submarine she was circling around, apparently waiting for other vessels. There were no other ships in sight.

"After putting off from the submarine," the mate said, "we headed for the New Jersey coast and passing Barnegat light in the early evening made fast to a fish trap about 11 o'clock. We remained there until daylight. We then started our engine again and soon sighted the Grecian. We raised an oar as a signal of distress and the steamer hove to."

## The Cleveland Tractor Means Bigger Crops and Profits—

The Cleveland tractor will pull a 2-bottom Oliver tractor plow 3½ miles an hour on your farm—turning 8 to 10 acres a day. That equals the work of three horse teams and three men.

And the Cleveland works not only better but cheaper than men and horses. Traveling on its own track it will go practically anywhere—even through ditches or gumbo, sand and gravel. It will not pack soil nor mire, slip nor flounder. It turns in a twelve foot circle. It is a marvelous example of compact, economical farm power.

## —if used with Oliver Tractor Plows

Behind the Cleveland tractor the Oliver tractor plow makes a complete one-man outfit.

You operate the power lift from the tractor seat by simply pulling a trip rope.

Plow points leave and enter the ground first assuring full depth plowing to the end of the furrow. Even depth plowing constantly is assured by the Oliver Stop Device.

See the Cleveland tractor and Oliver tractor plows at our store.

## Stomach Trouble

Mrs. Sophie Bauer, 521 First Ave., North, Fairbault, Minnesota, writes:

"I cannot praise your wonderful medicine, Peruna, enough. It has done much for me during the past ten years and I keep it in the house continually. I was in such a condition that I could eat nothing but bread and milk, and even that was too heavy for me at times. Now, I can eat anything. I will recommend Peruna to all my friends."

Those who object to liquid medicines can procure Peruna Tablets.

## KENTUCKY COUNCIL OF DEFENSE.

Louisville, Ky., June 6, 1918—The Kentucky Council of Defense has received the following request from Washington:

The War Department desires photographs, drawings and descriptions of bridges, buildings, towns and localities, now occupied by the German forces in France, Belgium, and Luxembourg, and likewise in that part of Germany lying west of the line running north and south through Hamburg.

At the request of the War Department, the Council of National Defense asks you to secure all possible material of this character. A large quantity of material is desired and may be sent without sorting, or without any attempt to avoid duplication. It will not be practicable to return the material to the contributors.

All such material should be sent by parcels post or express to:

## GEORGETOWN LADY'S PHONE TALK AT FAYETTE DRUG COMPANY SWELLS VIN HEPATICA SALES

Her Recommendation of Great Medical Prescription to Friend Over Phone Causes Several Others to Buy It.

While Mrs. R. L. Parker, of Georgetown, Ky., was in the Fayette Drug Company telling a friend over the phone of the wonderful benefits she had derived from taking the great Vin Hepatica prescription, she was overheard by several other ladies, each of whom bought a bottle on her recommendation. And she also ordered one for the lady to whom she was talking over the phone. She then said to Mr. C. H. Harrison, of the Fayette Drug Company: "I have suffered from catarrhal trouble and indigestion for a long while, but after taking a bottle of

Vin Hepatica I feel a wonderful improvement. Am now getting two for a friend to whom I have recommended bottles, one for myself, and one mended it."

This great Vin Hepatica prescription is indeed a wonderful remedy for catarrhal trouble, indigestion, biliousness, sleeplessness, nervousness, and weak and run down condition in women as well as men. It is a combination of eight of the finest all-vegetable remedies known to medical science—for just such trouble. Come in and get a bottle of it on our recommendation.

#### JUDGE COURT OF APPEALS.

We are authorized to announce JON. J. W. HENSON, of Henderson, a candidate for Judge of the Court of Appeals from the Second Appellate District, subject to the action of the Democratic party.

We are authorized to announce Judge WARNER E. SETTLE, of Bowling Green, a candidate for reelection for Judge of the Court of Appeals, from the Second Appellate District, subject to the action of the Democratic party.

A few days ago the Buddies—new men of our National Army—marched through the streets of London amidst cheers that made the buildings rock with reverberant echoes and sent a thrill through the heart of the responsive Yankees. We are glad this reception was given. It is a link that binds the hearts of the two great Anglo-Saxon peoples in one. Ever and anon some one who is either inclined to be pro-German or wants something to growl about arises and takes a lick at England. And some poor dupes have no more gumption than to favor every railing charge that is brought against our strongest ally. There seems to be a dislike of Britain because we fought her twice. We fought each other once—do we hate each other now? The English are our blood brothers and our friends. Even the best of friends will quarrel, and though we

often have a little unpleasantness with the old motherland, in the end we love her still. It was this same many during our war with Spain—England who said hands off to Germany who unlimbered her guns in our defense at Manila and would have used them had not German cowardice yielded; the same England who took sides with us in our trouble in Mexico and told the world to stay out; the same England who dashed into the world's greatest struggle, in defense of helpless Belgium and without any individual interest at stake, heroically held Germany at bay while France mustered her legions and the Americans got ready to fight. Why all these uncalled for animosities against the country of our fathers? Why do we withhold our praise? Hold the ropes, we are coming, England, five million strong!

Here it is June, and reports come to us that some of our roads are almost impassable. This certainly is a lamentable state of affairs, and it serves as everything else other than a boost for our county. We cannot expect our county to progress when it is almost impossible to traverse our roads in mid-summer. One of the best evidences we know of as to the progressiveness of a county is the condition of its roads, and what will the stranger, who has to traverse our county, think of us when he finds it a task to get through our county at the time of year when roads should be in excellent shape? Too bad!

The many friends of Senator Ollie M. James over the state will be glad to learn that he is rapidly recovering from the effects of an operation, and he will soon be entirely well. The big Senator from Kentucky will be the party nominee without opposition for re-election, and we don't believe the Republicans can "scare up" a man in the state who has even a chance of beating him in the November election. Senator James is one of the really big men of the nation—big in stature and big in brains, and is the recognized spokesman of the administration.

The Germans are a proverbially stupid people self-confessed. Recently the city council of a German town up in Wisconsin met to consider building a pavement. The chairman arose and addressed the council thus: "Gentlemen, we have

met here to talk about building a walk. For all the trouble. Lets all put our heads together and make a block pavement."

Ohio County has never failed in a work that called for patriotic devotion and enthusiasm. In the great Liberty Bond sale she bought nearly three times her quota; in the Red Cross drive she went over the top with bying colors; and now in the War Saving Stamp Campaign we have utmost confidence that she will do her part and do it well.

The German U-boats which came to the American side to frighten a continent of 100,000,000 people and stop war-preparation, is like the little dog that barked at the moon. The moon just kept on shining. And the Yankees will just keep on preparing.

The Austrian word for the catpillar war truck is Strassenbanwagenuntergestrill. We surrender.

#### LONG JUDICIAL TERMS.

The Times observes a phase of the campaign in the Second Appellate Court district that seems peculiarly out of tune with the great match of current events. It is being urged against the renomination of Chief Justice Warner E. Settle that he has "been on the bench long enough." Without regard to the personalities in that race, without wishing to be construed as expressing a choice between the distinguished men available. The Times yet submits that such a contention has no value on its face or in its inner significance.

Judges used to be appointed for life by the Governor of Kentucky, subject to good behavior. In that way they were in politics just once in their official lives. Perhaps it was a better system; certainly the present one that forces judges to seek votes every few years could not well be worse. Being a judge is a profession just like being a lawyer; the longer an able, honest man is at it, the better qualified he is to serve, and Judge Settle's twenty-six years upon the circuit and appellate benches have undoubtedly more fully qualified him for service than any other judge is qualified, so far as experience goes. If his opponents can find anything in his public acts or decisions that render his retirement advisable, that is proper campaign material and will undoubtedly re-

ceive due consideration from his constituency; but length of service is an asset to him and should not be attempted to be twisted into a liability.

The best way to keep judges out of politics—and that is the dearest reform yet to be won in America—is to insure their presence on the bench as long as they are true to their oaths and their capabilities permit. If they are untrue to their oaths, or are rendered incapable by any element, they should be succeeded by others. But ripe experience is not a bar to judicial re-election. From Louisville Times. Thursday June 6, 1918.

#### SENATOR JAMES.

The Herald heartily indorses every word of the following editorial, which appeared in a recent issue of the Louisville Evening Post:

The news that Senator James has greatly improved, and that the last slight minor operation, has been successfully completed, will be welcomed by all Kentuckians with a sigh of relief. Senator James has a strong hold on the people of Kentucky; on their admiration as well as their affection. Before long it is hoped he will be in Washington again to resume his duties as chief spokesman of the administration on the Senate floor.

Senator James has become distinctly stronger in Kentucky during the past few years. He has grown to his increased responsibilities, which, after all, is the test of a man. He is a better Senator than he was a Representative; just as Mr. Wilson is a better President than he was a Governor, and a more successful Governor than he was a university executive.

Senator James should not be opposed in his race in re-election to the Senate this fall. He certainly will have no opposition within the Democratic party. He is known to all the nation as the mouthpiece of the President in the Senate. The President has more than once shown his regard for Senator James and the high value he places upon his services. More than for any other man running for election this fall it can be said that a vote for Senator James is directly a vote in support of the President, and a vote against him a vote against the administration. It is hoped that he will be re-elected by an overwhelming majority.

## Hartford Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room for doubt. Read the public statement of a Hartford citizen:

R. L. Dever, proprietor grocery store, Union Street, Hartford, says: "I can recommend Doan's Kidney Pills as a good kidney medicine. My kidneys have bothered me and my back has troubled me with a dull mean ache. Doan's Kidney Pills have always relieved my back and regulated my kidneys and I am glad to praise them."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Dever had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

## LETTER POSTAGE 3 CENTS

Under the new tax law beginning Friday, November 2, 1917, all letters must bear 3 cents postage (each ounce) instead of 2 cents, as in the past; except "drop" or local letters, that is letters for delivery at the post-office or on rural routes out of the office at which the letters are dropped or mailed, these being 2 cents. Postcards will require 2 cents instead of 1 cent as in the past.

## THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD.

Practically a daily at the price of a weekly. No other newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe is now half-way into its third year, and whether peace be at hand or yet be far off, it and the events to follow it are sure to be of absorbing interest for many months to come.

These are world-shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

The Thrice-A-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Hartford Herald together for one year \$1.75.

## PRAYER FOR THE KAISER.

(Walter Greep.)

God, shut him forever from portals of Heaven;  
Give him a taste of the hell he has given  
To other poor wretches; damn him with death.  
Make him with misery to cry every breath;  
Torture him, pain him and make him to writhe;  
Cut him asunder from joy as the scythe  
Mows down the grain; lower his high brow;  
Heap all these manifold plagues on him now;  
Set his palace in ashes, his kingdom afire,  
With unquenchable flames burn his wicked Empire;  
Break his automobiles, let his chauffeurs all die,  
Make him walk everywhere like the commonest guy;  
Put a patch on his pants, cut holes in his shoes,  
Give him epilepsy, melancholy and blues;  
Take away all his money, let his servants all shirk,  
Send him out in the harvest with others to work;  
Let some one stand by him to make him work well,  
If he should refuse, let the lash work a spell.  
Let his girls marry niggers, his boys take to drink;  
Keep him so still he can hear himself think;  
Make him sit on hot coals every day till he cries,  
Have him sniff cayenne pepper, rub ambers in his eyes;  
Let him shave every morn with a caseknife or hoe,  
Make a bulldog to stand everywhere he shall go.  
Let his family forsake him, lower him in disgrace,  
Let beggars and scavengers spit in his face.  
Make some other fellow run away with his wife,  
Then give him the toothache the rest of his life.

Amen.

## ALL NEW YORK DISPLAY LIGHTS ARE FORBIDDEN.

New York.—The Police department issued an order that all display lights in New York City at night are forbidden until further notice.

No reason was given for the order, but the presumption is that because of the enemy submarines in American waters the authorities are taking precaution against the possibility of air raids by airplanes launched from U-boats.

The order does not apply to ordinary street lights, it was explained. Both the Police and Fire departments, it is known, have for some time made preparations for such an emergency as an air raid. The Police department has organized emergency relief units to cope with conditions which would result from a raid. Each unit consists of a group of specially assigned policemen, volunteer physicians and nurses for every police precinct. Red Cross supplies have been stored at convenient places.

Coney Island and all other seashore resorts within the city limits were darkened tonight under the terms of the order, which was issued after Police Commissioner Enright had consulted with the military authorities. The order reads as follows:

"All commanding officers of the Police department: All display lights, advertising signs or special illumination throughout the city, including the seashore, will be discontinued until further orders. This will not include city lights.

"In office buildings and dwelling houses where lights are used shades will be drawn where it is possible to do so.

"Notify all concerned immediately."

Ten minute blasts of whistles and sirens will be given as a danger signal.

## FURLONGS HARD TO GET IN NATIONAL ARMY.

Camp Zachary Taylor, Ky.—Indiana, Kentucky and Southern Illinois members of the National Army in training here, who have applied for furloughs to work on farms have right chances to obtain them, it is said. While no definite policy has been announced by the division headquarters, furloughs are being granted only to those who have excellent reasons for being absent from camp. Thousands of such applications are on file in the office of Major Gen. Harry C. Hale. Although a few leaves of absence have been granted a time soon will arrive, it is said, when no reason will obtain a furlough for a man, for it is the general policy of the military authorities to rule that the military necessity of

the time is greater than the agricultural or other necessities.

Early in the spring it was announced at Washington that skilled agriculturists drafted into the National Army would be given furloughs upon presentation of proper applications. Military authorities, in turning down many applications in the face of that announcement, have taken into consideration that many colleges and secondary schools close in the near future and thereby the need for farm workers would be supplied to a great extent.

## HISTORIC RECORD MADE IN SHIP PRODUCTION.

Washington, June 6.—On the heels of the German submarine raid in the North Atlantic, the shipping board announced tonight that production of new vessels in May was the greatest of any month in the history of the nation. There were completed and delivered to the shipping board 44 ships, total 263,571 tons, three times the output of January and twice that of February.

Production for the first five months of the year is well along toward 1,000,000 tons, which officials expect to be passed this month. Beginning with 88,597 tons in January, the deliveries increased to 123,625 in February, 172,611 in March and 160,286 in April, making a total with the May output of 808,600 tons. Production in the United Kingdom was 87,852 tons in January, 150,057 tons in February, 252,511 tons in March and 169,000 tons in April, a total of 659,420 tons. The British output for May has not yet been received here.

Total American deliveries since last September have been 170 ships of 1,112,897 tons, the output for nine months being nearly three times greater than the best previous entire year, 1901, when 402,136 tons were completed, exclusive of the Great Lakes. Great Britain's greatest shipbuilding year was 1913, when the deliveries totaled 2,989,229 tons.

Officials of the board declined to estimate the June tonnage. It is believed, however, that they hope to complete at least 500,000 tons.

The last six days of May were the banner week of the shipping board's efforts, 15 vessels, totaling 82,700 tons, being delivered. Of the month's total, 39 were requisitioned steel vessels, four contract steel vessels and one contract wooden vessel.

## PAYMENT OF INCOME TAXES MUST BE BEFORE JUNE 15.

Washington.—Bills for income and excess profits taxes have been mailed by all revenue collectors, the Revenue Bureau announced today, and payment must be made on or before June 15. Failure to receive a notice does not exempt a person from payment.

Many thousands are paying their taxes without waiting until the last day, but corporations and big business interests generally will pay on the 15th, many by turning in tax certificates of indebtedness. The treasury has urged that certificates be used in this way.

Some business men have complained to the treasury that they have not sufficient funds to pay their taxes and that they cannot borrow from banks. No relief is available for them from the treasury, as the War Finance Corporation is making no advances for this purpose.

## WILSON TAKES STAND ON PROHIBITION LAWS.

Washington, June 6.—President Wilson declared his opposition to further prohibition legislation until the food administration decides it is necessary to conserve foodstuffs. His position was made known in a letter to Senator Sheppard of Texas. A House amendment to the agricultural appropriation bill would prevent the expenditure of \$6,000,000 unless the president prevents the use of grain in the production of alcoholic liquors.

Senator Sheppard said he would not make public the letter at this time. He said he conferred with Food Administrator Hoover today regarding the situation and was awaiting his reply. Upon this answer, he said, will depend further action.

## MISTAKEN FOR TARGET.

Washington, June 6.—A warship engaged recently in target practice mistook the battleship Louisiana for a target and exploded a shell aboard her, killing one man, the Navy Department announced today. The accident was due to hazy weather.

The man killed was Fireman Moses L. Morgan of Gulfport, Fla. No further details were given in the announcement.

## Shooting Pains.

Small Katherine had the "jumping toothache," although her mother was unaware of the nature of the pain. In her efforts to discover this she asked: "What does it feel like, honey?" "Oh," said Katherine, with a note of pain and despair, "it des feels like a dun a-shootin'."

## It Pays Dividends.

Great books need hard, close repeated study, and are not to be skimmed over like current fiction. When the time which must in any case be expended on the mastery of the thought is subtracted, a modest knowledge of the language does not represent so very formidable an extra investment.

## 'Twas Ever Thus.

## Lost His Sweetheart.

Harold, aged five, was visiting his aunt in the city, and the little girl next door was his sweetheart till one day when she came over with her little pink rompers on. Mortified, Harold said: "Why don't you go home and get a dress on; I don't want you to be a boy."

## Dwarf Trees for Gardens.

Dwarf trees are suited to small gardens, they occupy little space, are easily cared for, bear sooner than standard kinds, and they are easily shaped into bushes and pyramids, or can be used in espallier forms, trained on buildings, fences or trellises.

## Watching Lobsters' Tails.

To find out if they have been cooked alive, lobsters should be examined very carefully. If their tails are tightly curled to their bodies it is reasonably certain that they were properly cooked.

## BUSINESS MEN TO

## WORK ROADS.

A free-for-all road working will take place, Friday, June, 21st, when the business men and citizens of Hartford and territory adjacent to the roads to be worked, will organize into a band and go forth to put in condition some of Ohio County's sadly dilapidated roadways. All the business houses in Hartford will be closed for the day so as to give the proprietors and employes an opportunity to participate in this worthy enterprise. The road to be worked will be the Owensboro, Hartford and Morgantown road. They will work from the Davless County line, through Hartford and Beaver Dam to the edge of Butler county. The entire day will be spent in work. Road overseers along the way are expected to be there with their road heads and every good citizen is requested to come, bring his team and tools, and help. The roads of the county are in a lamentably run-down condition and a few workings like these gentlemen are undertaking would soon bring them to a better state.

27 WHITES, 5 NEGROES.

## Report to Camp Taylor During June From Ohio County.

Twenty-seven white men and five negroes will be sent by the Local Board from Ohio county this month to Camp Zachary Taylor.

The negroes will be sent to camp between June 19 and 24, inclusive, and the white men will leave here during the period of June 25 to 29, inclusive.

The Local Board has had no official communication from state headquarters relative to the sending of these men, but the county's quota as above was published in a Frankfort dispatch to the Sunday Courier-Journal, and the official orders always verifies such dispatches.

## REVISION OF CLASSES

## TO TAKE PLACE.

Recent advices state that there will soon be a reconsideration and re-classification of those deferred in the first draft because of various reasons. Chiefly concerned will be class 4 men who were deferred owing to being married, while if they have married since the draft or the wife's parents are able to support her, they will likely be put back in class 1; and those who are not contributing to any considerable degree to the support of dependents will be given new consideration. It is expected that something like 500,000 men will be added to class 1 by this fall.

Call at Acton Bros. for demonstration.

That's easy to answer—you want everything that the ingenuity of man has invented; that science could develop, and an American, accustomed to the best, desire.

You want comfort to the point of luxury in riding qualities.

You demand a car that in outward appearance is one you and your family can be proud to be seen in.

You insist on artistic lines in a body that is in accord with the prevailing fashions. Upholstery that feels as easy as it looks—that is as durable as the best.

And withal a finish in details and in the ensemble that looks the part your car is to play in your daily life.

Speed, you desire, equal to any occasion and power equal to any emergency.

All these you may obtain in a motor car and at a price well within your reach—if you but select right.

There's the rub—how to decide, between those who claim everything, which car will fulfill the claims.

For makers are not over-modest. There's no patent on adjectives nor restriction on the use of words.

Every maker claims everything. How is one to decide?

After all, it isn't so difficult. Just observe one rule—accept no claim that hasn't been proven.

You can see and test for yourself most of the qualities you desire in a motor car.

You can compare body lines. You can feel the upholstery. You can determine the quality of finish.

By riding in it you can verify or disprove all claims as to spring suspension, balance and riding qualities.

If you know how to drive any car you can drive it yourself and thereby test the handling and control—steering gear, shift, clutch, brakes, etc.—and responsiveness of motor.

All these are an open book to the man who will read and can interpret.

So after all, you need only accept the word of the salesman for—well, for the most important facts.

These are, the reliability of the car and its gasoline consumption.

And there's where the claims come in—for makers being human, and business being competitive, there is a tendency to claim reliability unlimited—and fuel economy to the vanishing point.

Since this is so, what is the formula for accurate selection of a motor car?

Proofs—that is the only certain way.

"Claims are all right, but only proofs count"—that is the Maxwell slogan.

Believing that every claim should be susceptible of incontrovertible proof—and believing it to be good business to claim only what we can prove—

We have proven in official test, and before the whole world, those two most elusive but most important qualities—reliability and gasoline economy.

In 44 days and nights running, during which the motor never stopped—the car every minute under the supervision of A. A. A. Officials—the Maxwell proved its wonderful reliability.

That still stands the world's record for reliability—the Official Record.

In that same non-stop test, a standard, stock-model Maxwell covered 22,022 miles at an average speed of 25 miles per hour.

That also is the Official World's long distance record.

Again: The Maxwell Motor Company offered \$50,000 in Liberty Bonds to Maxwell owners all over the American Continent—Canada, the U. S. and Mexico—for an economy contest.

More than 3000 Maxwell owners entered—and the average of all those Maxwells was 29.4 miles per gallon of gasoline. (That was for a U. S. standard gallon. Add 20 per cent mileage and you have 35.3 for a Canadian "Imperial Gallon.")

That also stands a world's record for gasoline economy.

And remember, it wasn't the performance of one especially adjusted car, but an average made by more than 3000 Maxwells—1915, 16 and 17 models.

Nor were they driven by factory employees or dealers—the rules specified that only actual owners or members of their families could compete.

So there's one car, in the selection of which you can be sure—absolutely sure.

For what you cannot yourself see and examine and test, has been proven beyond question.

You are invited to see and to ride in and to drive yourself, a Maxwell.

And, having done that—having seen and tested all that can be confirmed in a short time—the official figures of those long-time, long-distance, reliability and economy tests are also available to you.

Then, if you are willing to accept mere verbal assertions in the selection of your car—that is your privilege, of course.

But if you want a car that in official test has proven every claim made for it—that car must be a Maxwell.
